\$10,000 Rebate on EV Chargers for condo & apartment buildings

Invest in your tenants and your business.

The Incentive

Install Level 2, networked smart charging stations from Electric Avenue or other eligible EV chargers and receive 50% funding for the total installed cost per charger.

*Up to a max of \$2,500 per charger and \$10,000 per building

Eligibility (Nova Scotia only)

- ✓ Existing apartment and condo buildings with four or more residential units.
- ✓ The EV charging equipment must be installed on common area power or 'base building'
- ✓ Only charging stations installed for use by building residents are eligible for rebates (not public)

How can I apply?

Step 1

Review the [Rebate Guide](#) to ensure your building is eligible for rebates

Step 2

Apply for Pre-Approval. Complete and submit these documents:
[Site-Assessment Form](#)
[Pre-Approval Form](#)

Step 3

Wait for project approval before purchasing your charging stations. Decisions made within 30 days

Step 4

Install your charging stations and ask your electrician for the electrical permit number

Step 5

Submit your [Rebate Form](#) and required documents within 6 months to access your funds
